

DUSHAN NAVODYA

Software Engineer

PERSONAL PROFILE

Experienced software developer with a passion for technology and problem-solving. Skilled in multiple programming languages, development tools, and frameworks. Proficient in UI design to enhance user experience. Dedicated team player committed to learning and delivering innovative software solutions for clients.

WORK EXPERIENCE

SOFTWARE ENGINEER

Dale Consulting

November 2024 - Present

- Migrated legacy banking applications from Vue 2 to Vue 3, improving performance and maintainability.
- Designed and implemented UI component libraries using advanced Vue features for consistent development.
- Developed dynamic custom components for improved user experience.
- Led front-end architecture redesign for scalability and enterprise-grade performance.
- Integrated applications with Microsoft SharePoint and deployed them via Windows Server.
- Wrote and maintained automated test cases using Jest for JavaScript and Visual Studio testing tools for C# applications.

SOFTWARE DEVELOPER

Cedacri S.p.A (remote)

April 2023 - Present

- Developed front-end for banking platforms using Vue with support for multiple browsers.
- Created dynamic user interface components tailored to improve usability and responsiveness.
- Managed and documented RESTful APIs for internal and third-party services.
- Utilized Team Foundation Server and Git for collaborative project tracking and version control.
- Deployed applications in secure Windows Server environments.

PERSONAL DETAILS

Date of Birth : 25-12-1998

Nationality : Sri-Lankan

Marital Status : Married

LANGUAGES

English : Fluent

Italian : Good

JUNIOR SOFTWARE DEVELOPER

Ulixer Italy (Napoli, Campania)

November 2022 - November 2024

- Developed an E-Voting web application front-end using Angular.
- Used PostgreSQL and MongoDB for database layers; built back-end with Spring Boot APIs.
- Designed cross-platform responsive interfaces for seamless and secure voting experience.
- Conducted manual QA testing and implemented code optimizations for consistent performance.

SOFTWARE ENGINEER INTERN

Eagle Eye Internationals (Rajagiriya, Sri Lanka)

Jan 2021 - Jan 2022

- Developed Angular web applications for hotel management.
- Developed IOT and Arduino projects for local Cinema systems.
- Designed and developed C# Windows Form desktop applications.
- Created Native Android mobile apps using Java and utilized REST APIs for Backend.
- Designed user interfaces using Adobe XD and Figma.
- Managed SQL databases using MS SSMS.

EDUCATION STATUS

University of Plymouth - (Plymouth, United Kingdom)

BSc(Hons) in Software Engineering (First Class) | 2018-2021

University of Cambridge

ESOL Examinations - Key English Test (KET)

St.Joseph Vaz College - (Wennappuwa, Sri-Lanka)

G.C.E (A/L) examination (English Medium) | 2017

St.Mary's College - (Chilaw, Sri-Lanka)

G.C.E (O/L) examination (English Medium) | 2014

TECHNICAL SKILLS

- Angular, Vue, ASP.NET
- TFS, GIT
- Sharepoint, MS Office Online
- Java, C#, Typescript, Javascript
- HTML, CSS, SCSS, XML
- PostgreSQL, Firebase, MSSQL
- Native Android
- Swift
- Python

PROFESSIONAL SKILLS

- Proficient in Agile and Scrum development methodologies.
 - Strong team collaboration and communication skills in English.
 - Exceptional problem-solving skills .
 - Capable of working in fast-paced, high-stress environments.
 - Quick learner with the ability to adapt to new technologies and programming languages.
-

RESEARCH PUBLICATIONS

Police Traffic Controller

International Conference On Business Innovation 2021

EXTRA CURRICULAR ACTIVITIES

- Sri Lanka Taekwondo Federation - Green Senior
 - Former Member of FOSS Community (NSBM)
 - Former Member of Mozilla Campus Club (NSBM)
 - Volunteering at Google Code Jam 2019
-

PROJECTS

Electronic Voting System Development

- Designed and developed the user interface of an electronic voting application using Angular, with a focus on mobile responsiveness and accessibility.
- Collaborated with the backend team to integrate APIs and manage data workflows.
- Utilized MongoDB and PostgreSQL to support a hybrid data model with structured and unstructured data.
- Actively contributed to the software development lifecycle including version control, testing, and code reviews.

Technologies : Angular, PostgreSQL, MongoDB, Spring boot, Docker

Banking Administration Platform

Developed interactive front-end components using Vue.js, migrating from Vue 2 to Vue 3 to leverage new features. Created reusable, maintainable cascade-style components, enhancing development efficiency. Integrated Vue with Microsoft SharePoint and MS Office Server for improved collaboration. Utilized Pinia for efficient state management and ensured cross-browser compatibility for a consistent user experience.

Technologies : Vue.js, Sharepoint, Javascript, Pinia, primevue, MongoDB

Police Traffic Controller

Developed an system for the Sri Lankan Police Traffic Department which allows police officers to electronically issue fines, deduct demerit points, and verify public documents through scanning. The system also enables the public to pay fines online, store digital documents, report stolen vehicles, locate impounded vehicles, and reserve number plates. Utilized Google Vision API for automatic form filling, ensures seamless system integration and user experience.

Technologies : Java, ASP.NET, XML, HTML,CSS, JavaScript, Firebase,Google Maps API, Google Vision API Image Detection, Razor Pay Payment gateway
